Mr. William Caton Acting Secretary Federal Communications Commission 1919 M Street, N.W. Washington, DC 20554

Re:

MM Docket No. 92-266

Supplemental Information re: Programming Costs for Large Cable Operators Versus Small Operators

Dear Mr. Caton:

On behalf of the Coalition of Small System Operators, enclosed is an analysis of small operator versus large operator programming costs prepared by a member of the Coalition of Small System Operators. This analysis was prepared in the context of a proposed merger or joint venture between the small operator and the large operator. The purpose of the analysis was to determine the amount that the small operator could save on programming costs if it were able to benefit from the programming discounts available to the large operator (with more than one million subscribers). We are not able to disclose the identity of either of the parties involved in the merger/joint venture negotiations because of a strict confidentiality agreement between the parties.

No. of Copies rec'd 2
